

Create Node Red Service

Step: 1 Create Node Red And Click App Url

The screenshot shows the IBM Cloud console interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and user information. Below the navigation bar, the breadcrumb trail reads "Resource list / App details /". The main heading is "Node RED JPAGT 2022-10-20" with an "Add tags" button. To the right is an "Actions..." dropdown menu. The content is divided into two main sections: "Details" and "Deployment Automation".

Details

App URL	https://node-red-jpagt-2022-10-20.eu-gb.mybluemix.net

Status	Success
Name	pr-pipeline
Status	No stages detected

ASK A QUESTION

Step: 2 Click On "Go To Node-RED Editor"

The screenshot shows the "Node-RED on IBM Cloud" landing page. The header is "Node-RED on IBM Cloud". The main content area has a dark red background with the text "Node-RED" and "Flow-based programming for the Internet of Things". Below this, there's a light gray section with text describing Node-RED and a button to "Go to your Node-RED flow editor".

Node-RED is a programming tool for wiring together hardware devices, APIs and online services in new and interesting ways.

This instance is running as an IBM Cloud application, giving it access to the wide range of services available on the platform.

More information about Node-RED, including documentation, can be found at nodered.org.
